

TAKE A TRIP WITH SAGAMORE

*By Christine Phillips
Barclay Butera Interiors*

Recently, interiors icon Barclay Butera had the opportunity to design his own home using his spectacular new Sagamore Collection of fabrics from Kravet! This exclusive collection of prints, weaves, embroideries, textures, and stripes was inspired by Butera's extensive travels around the world. Sagamore echoes a curated, layered look, with a touch of global inspiration, for a massively appealing vibe. Sophisticated and high-fashion, the colors in this collection reflect Butera's worldly point of view while remaining rooted in his famous coastal sophistication. Fun surprises of coral accents and hints of metallic give the room a youthful twist. The muted, rich color palette accentuates the distinct style of the home. Always inspired by the sand and sea, Butera continues to offer his beloved traditional blue and canvas colors that his clients continue to crave.

The global influence of the Sagamore Collection allows Barclay Butera Interiors to create magnificent, carefully curated design projects for your home ~ Enjoy the adventure!
