THE GREAT OUTDOORS

*By Christine Phillips
Barclay Butera Interiors*

Ahhh the great outdoors! At Barclay Butera Interiors that does not necessarily mean roughing it; rather a perfectly appointed, spectacular outdoor living space. Barclay has always considered the design of any outdoor venue to be equally as important as the interiors, and has often referred to these alfresco vistas as the “5th room.” And even though Labor Day is over, the kids are back in school, and cooler days are ahead for most of us, that doesn’t mean we are ready to end our love affair with outdoor living. And to showcase his incredible collection of outdoor furniture with Castelle, Barclay will be designing the House Beautiful Whole Home designer Showhouse in Nashville this fall 2019!

Chillier weather calls for more layering and starting up your fire pit! We love to add fabulous pillows in amazing outdoor fabrics from sources like Barclay’s personal designs with Kravet, Sunbrella and Perennials. Cozy, plush throws for curling up after sunset and of course fabulous hurricanes, candles, and soft lighting always set the stage. Maybe your rose and white wine choices change to dark rich reds, and sweaters and jeans replace your carefree summer tank tops and shorts. But even with fall on the way there’s no coming in from the outdoors with Barclay Butera!
