EXPERIENCE THE MAGIC AND ROMANCE OF MALIBU

*By Christine Phillips
Barclay Butera Interiors*

Just a scenic drive up the Pacific Coast lies a glamorous yet laid-back community that serves as the inspiration for Barclay Butera's Malibu furniture collection; Malibu! The fresh new designs reflect the global sophistication of the iconic L.A. coastal community, whose Mediterranean climate and 21-miles of pristine shoreline have made it a haven for his discerning clientele and the stars of Hollywood alike.

Barclay is thrilled to offer his clients an entirely different take on casual transitional design, and has embraced a neutral palette that is both soothing and inviting. "My goal was to change the script on traditional styling by infusing the designs with this coastal enclave's chic, serene vibe. I chose textiles that feature soothing neutral palettes, punctuated by deep colors like steel blue and cacao," said Butera.

For clients and fans that love natural materials, including woven cane and rich leather, this is your ticket. Malibu is available at retailers across the country and you can swing in to Barclay Butera Interiors to check out a taste of Malibu! The collection is so versatile; perfect for projects in the mountains, desert, on the coast and even a homes that are modern-metro-chic. After all, Malibu is a state of mind.
