Think Spring at Barclay Butera

LIGHTEN UP YOUR SPACE WITH A SEASONAL REFRESH.

BY CHRISTINE PHILLIPS FOR BARCLAY BUTERA INTERIORS

he days are getting a bit longer and thoughts of pending spring are in the air! At Barclay Butera Interiors, we are in full-tilt refresh mode and we are here to help our clients and customers "lighten-up" for the coming warmer days ahead. Of course we have requests for full remodels and make-overs; but we also have devoted fans that may just want a quick touch-up for their homes. Think about all levels of the eye and where your focus is when you walk into the room: From the walls to the floor, simple changes can transform an entire room. On the wall, try replacing a heavy baroque mirror with a light frameless offering with maybe an interesting shape feature or etching. We also are known to switch out art; heavy colors can be replaced with fresh pastel abstracts. Pillows and

rugs update a room in a snap! We have clients that keep an arsenal of four season pillows on hand. But even swapping out the velvets for crisp linen or cotton-ticking pillows in fresh breezy colors makes a tremendous difference. Same for your rug. Choose the same size but a new and subtle pattern that has spring color interest that coordinates with your pillows and the room can look entirely fresh and new. And don't forget your florals! "Faux" is no longer "faux-pas." My spectacular collection of florals with Napa Home & Garden look so real; they come in gorgeous blue and white shades that are reminiscent of warm sunny days in the garden. So look at your home and remember—there are simple tricks that make it easy to dream; spring is right around the corner.
