# Viva Las Vegas!

BY CHRISTINE PHILLIPS FOR BARCLAY BUTERA INTERIORS

The stakes were high when iconic interior designer Barclay Butera signed on for a contemporary stunner in the internationally renowned resort town of Las Vegas, Nevada. Known for his fearless use of color and pattern-on-pattern designs, the request for a monochromatic, sleek transitional look was a welcome challenge for Barclay Butera Interiors. Tapping into his cool, Rat Pack vibe, Butera infused clean lines,

sleek angular silhouettes, and his signature animal print into the design. Layering graphic patterns in black, white, charcoal and adding glittering chandeliers and pops of orange rounded out the mix. The results are a glamorous yet comfortable home with a killer bar and all the fun and function for entertaining and easy living. This home beckons you to cue up the Dean Martin, shake up a cold martini, and spin the wheel!
